# The compact & robust multifunction device for **all** your office requirements

Introducing Fuji Xerox's DocuCentre-II C4300/3300/2200 range of multifunction devices, capable of combining copy, print and scan functionality with optional faxing in one compact unit. These devices also produce output at speeds of up to 45/35/26ipm monochrome and 35/31/26ipm colour respectively.

Combining Fuji Xerox's EA-High Grade toner technology with TRUE 1,200 x 1,200 dpi printed output resolution will make your documents appear to have been professionally printed, whilst the three finishing options will help ensure all your document production requirements are met.

## Copy

The copy features available with these devices extend beyond just the duplication of documents to:

**Automatic colour sensing technology** - this allows DocuCentre-II C4300/3300/2200 devices to automatically recognise colour on a page and only charge for the colour you use.

Only pay colour rates for the colour page you use

**Security Watermark Kit** - this optional kit embeds invisible text strings into copy or print documents to restrict copying, scanning and faxing of them on similarly featured devices.

**Additional features include:**

- Job build
- User defined annotations (optional)
- Customisable user interface

Fax

Email

## Print

The intuitive WHQL certified PCL6 (standard) and PostScript (optional) print drivers incorporate sophisticated features to enhance productivity and simplify usage.

**Mailbox print/Document merge** - saving frequently used documents (e.g. leave forms) to a device mailbox via the printer driver or scan functions will allow users to access these on demand and/or merge them with other documents within the mailbox for printing.

**Favourite print settings** - Save time by storing the settings of frequently printed documents in the favourites menu of your print driver.

**Additional features include:**

- Secure print
- N-Up printing
- Help function
- Driverless printing

## Scan

In addition to rapid colour scan speeds of up to 45ipm, DocuCentre-II C4300/3300/2200 devices incorporate a number of clever scanning features to enhance efficiency.

**Scan distribution** - scanned documents can quickly and easily be distributed to a range of destinations including a mailbox on the device, multiple email addresses or any shared folder/server on the network.

**Additional features include:**

- Password protect PDF documents
- Browse network folders/servers at user interface

## Fax

With the option of G3 faxing capabilities, you can enjoy speedy faxing with up to three fax lines sending and receiving faxes simultaneously.

**PC fax** - to save paper and reduce costs users can send faxes directly from their PC using the printer driver.

**Fax re-send** - this feature captures and stores failed faxes sent from the device. Users can retrieve, edit the phone number and re-send these as required.

**Additional features include:**

- Delayed send
- A3 document faxing
- Mailbox sending/receiving

## Configuration Options

These devices are available with four fully customisable, 500 sheet (A5 to A3) paper trays as standard with the option of two high capacity (A4/Letter) paper trays to replace two of these on the DocuCentre-II C4300.

**This range of devices is also available with three finishing options:**
